**SERTEC S.R.L.**

This Data Universal Numbering System is a global identifier, which authenticates the existence of the company.

The fact that a company is registered in CIAL Dun & Bradstreet's database does not mean that a credit or any other transaction should be approved, rejected, limited or delayed; it means that there is sufficient information to assign a D-U-N-S® Number.

The D-U-N-S® Number is permanent in CIAL Dun & Bradstreet's database. However, the information contained in the report generated when granting this identifier, is valid for one year from the update date.
